1.1 Significant Developments During the Period

- **Regarding Directors' and Officers' Liability Insurance – 02.01.2026**

In accordance with the Capital Markets Board's Communiqué on Corporate Governance No. II-17.1, the directors' and officers' liability insurance has been renewed for a period of one year.

- **Participation of Our Direct Subsidiary Öncü Venture Capital Investment Trust (Öncü VCIT) in the Capital Increase of Karel Elektronik through a Private Placement without a Public Offering – 22.01.2026**

Our Company's Board of Directors has resolved, inter alia, as follows:

- To determine the participation amount of our direct subsidiary Öncü VCIT in the capital increase of Karel Elektronik, in which Öncü VCIT holds a 40% stake in the issued share capital, whereby Karel Elektronik's issued capital of TRY 805,885,530.35 will be increased through a private placement without a public offering, with the pre-emptive rights of existing shareholders fully restricted, for a total sale amount of TRY 1,750,000,000, and Öncü VCIT's participation amount in the capital increase set at TRY 918,638,020;

- To utilize in full the "capital advance" amounting to TRY 659,622,300, which has been transferred in cash by Öncü VCIT to the accounts of Karel Elektronik, in the aforementioned capital increase;

- Following the offsetting of the capital advance amount of TRY 659,622,300 against the participation amount of TRY 918,638,020 determined for Öncü VCIT's participation in the capital increase, to pay the remaining balance of TRY 259,015,720 in full and in cash by Öncü VCIT, additionally and specifically for the capital increase, following the approval of the capital increase;

- In the event that the total sale amount of TRY 1,750,000,000 is not reached, to undertake towards Karel Elektronik to purchase the remaining amount by paying it in full and in cash, provided that the maximum additional purchase amount shall not exceed TRY 200,000,000.

- **Appointment of Executive Committee Member – 09.02.2026**

Ms. Esra Beyzadeoğlu has been appointed as Executive Committee Member responsible for Human Resources and Technology at our Company. After completing her high school education at Istanbul Atatürk Science High School, Esra Beyzadeoğlu earned her bachelor's degree in Industrial Engineering from Galatasaray University and holds an MBA from Sabancı University. She has over 25 years of industry experience in Technology Management, Human Resources, Customer Experience, Management, and Technology Consulting. Beyzadeoğlu began her career in 2000 at Osmanlı Bank within the Technology Organization as a Project Officer and Business Analyst. She subsequently held various managerial roles at Ziraat Technology and Accenture Consulting. Between 2011 and 2018, she served as Department Head at Akbank Information Technologies. From 2018 to 2021, she worked at Alternatif Bank as Executive Vice President responsible for Information Technologies, Digital Banking, CRM, and Operations. In 2021, Beyzadeoğlu joined the Hepsiburada Group as Group Head of Human Resources. Since 2022, in addition to Human Resources, she has also been responsible for Customer Experience as well as Customer and Seller Services, playing an active role in establishing and scaling the Group's corporate structures. Continuing her life as a technology leader, transformation executive, and mother, Beyzadeoğlu is the mother of a 16-year-old son.

- To audit our Company's financial reports for the 2026 accounting period in accordance with the principles determined based on the Turkish Commercial Code No. 6102, the Capital Markets Law No. 6362 and the Decree Law No. 660 and the secondary legislation provisions in force in this context and

- To perform the assurance audit activities of other selected information related to sustainability, including the assurance audit for the sustainability reports for the year 2026 to be prepared in accordance with the Turkish Sustainability Reporting Standards published by the Public Oversight, Accounting and Auditing Standards Authority.

- **Regarding the Update of the Remuneration Policy – 17.03.2026**

Our Company's Board of Directors has decided to approve the 'Remuneration Policy', which has been created based on the need for an update, and to present it to the shareholders' information at the next General Assembly Meeting of our Company. The PDF file is available on our corporate website and in the *PDP announcement*.

- **Dividend Distribution Proposal of the Board of Directors – 17.03.2026**

Our Company's Board of Directors has resolved, among other matters, as follows:

According to the accounting records of the consolidated financial tables maintained in accordance with the Capital Markets Legislation, a total of TRY 1,767,706,603.06 of "Net Distributable Profit for the Period (Including Donations)" was generated for the fiscal year 2025.

According to the Statutory Accounting Records (Statutory Records) maintained in accordance with Tax Legislation, a "Net Loss for the Period"* amounting to TRY 3,342,736,150.89 was recorded, along with "Accumulated Losses from Previous Years" amounting to TRY 1,516,792,180.90.

In light of the above, it has been resolved to submit to the General Assembly for approval that no profit distribution can be made for the fiscal year 2025.

The dividend distribution table is available on our corporate website and in the *PDP announcement*.

** According to tax legislation, a significant portion of the "Net Period Loss" recorded in the statutory accounting records resulted from the difference between the sale price and cost value of Boyabat Elektrik Üretim ve Ticaret A.Ş. shares. This sale did not have a negative impact on the consolidated financial statements prepared in accordance with capital market legislation or on the net asset value of our company.*

- **Candidates for Independent Board of Directors Membership – 27.03.2026**

3.2 Financial Analysis

Doğan Holding increased its Net Asset Value by 6% ytd to 3.0 billion USD as of March 2026 and recorded 23.9 billion TL in revenues, 2.6 billion TL in EBITDA, and 334 million TL in Net Profit in the first quarter of 2026.

4. OPERATIONAL HIGHLIGHTS FOR THE PERIOD

- **Net Asset Value** increased by 20% y/y to 3,004 million USD as of end-March 2026. This growth was primarily driven by strong book value and EBITDA increases at Hepiyi Insurance and Gümüştaş Mining, respectively.

- **The Holding's standalone net cash position** was maintained at 633 million USD, broadly in line with the year-end level (FY2025: 639 million USD). During the period, no cash outflows or capital injections were required for any subsidiary. The slight decline mainly reflects the impact of war-related factors already being priced into the assets in which our cash is deployed as of end-March. Compared to year-end, the share of TL-denominated assets within our standalone net cash increased from 20% to 28%.
- Our strategic focus areas delivered a strong start to 2026:
 - **Mining:** Gümüştaş recorded **141% revenue growth y/y and a 58% EBITDA margin** in the first quarter, significantly outperforming its full-year 2026 guidance of at least 40% revenue growth and a 40–50% EBITDA margin. In line with its annual ore production targets, the company achieved a **36% increase in production** in the first quarter and continued to execute its growth plans uninterrupted, supported by capex of 10 million USD in 1Q26.
 - **Financial services:** Hepiyi Sigorta's Assets Under Management (AUM) increased by **50% y/y to USD 818 million**. Strong and disciplined growth practices resulted in a **180 bps y/y increase in market share** in the motor own damage (MOD) segment, positioning Hepiyi Sigorta as the **8th largest MOD** insurer and the **5th largest MTPL** (Motor Third Party Liability) insurer in the market.
 - **Renewable energy:** Galata Wind maintained its installed capacity at 354 MW while continuing its investments in line with its growth targets in the first quarter. In 1Q26, Galata Wind's electricity generation increased by 38% y/y; however, revenues declined 5% y/y due to the drop in Market Clearing Prices.
- **Doğan Holding's total revenues** were recorded at **23.9 billion TL** in 1Q26, remaining broadly flat y/y, as strong growth in our mining, investment banking and factoring businesses was offset by a more cautious performance in Automotive and Hepiyi Sigorta as well as by the exit from Ditas subsidiary.
- Meanwhile, **EBITDA delivered a strong performance, increasing by 142% y/y to 2.6 billion TL**, supported by a decline in operating expenses and costs driven by our efficiency focus. The strong contribution from the mining segment, along with Karel's operational transformation and improvement in the automotive segment, led to an **expansion in EBITDA margin - that excludes finance segment - from 4% to 11%** compared to the same period last year.
- **Doğan Holding outperformed the BIST-100 Index in 1Q26**, delivering a total return of 18% year-to-date versus 14% for the index, **implying a 4 percentage point outperformance**. Compared to the Holding Index, the Company generated a **22 percentage point outperformance** year-to-date. **The share of foreign investors in the free float also increased by 4 percentage points y/y**, from 20% to 24% as of end-March 2026. This development is particularly significant as it reflects growing investor confidence in Doğan Holding, driven by disciplined execution, transparent disclosure, and a consistent commitment to strong corporate governance.

4.1 Management Assessment

Despite increased geopolitical volatility and regional tensions observed in March, we have started 2026 with a strong operational and financial performance. Our Net Asset Value increased to 3.0 billion USD, supported primarily by the robust contribution of our mining and financial services businesses, while our consolidated EBITDA grew significantly alongside a **notable improvement in margins**. I am

also quite happy to see our **portfolio restructuring is delivering at full speed with strategic focus areas now contributing to 54% of our total NAV** vs 44% same period last year.

As a result, we are pleased to observe that, as of the first quarter of 2026, **our revenue and EBITDA composition has evolved into a much healthier, more balanced, and more sustainable structure** compared to previous periods. In particular, with the increasing contribution of our strategic focus areas within our consolidated financials, we believe that the Holding's operational resilience and quality of profitability continue to strengthen with each passing quarter.

Gümüştaş Mining and Hepiyi Sigorta remained key value drivers in the first quarter, delivering strong profitability and growth, while Galata Wind continued to expand its generation despite a softer pricing environment. In addition, **Karel** continued to reap the benefits of its operational transformation, delivering significantly higher performance in both revenues and EBITDA. Accordingly, I am also pleased to see the relentless focus on **efficiency and disciplined cost management** across the Group and hence to have delivered **EBITDA margin expansion of 7pp y/y, reaching 11%** as of March 2026.

We maintained our **solid balance sheet position**, with our standalone net cash remaining broadly stable. This financial strength continues to provide us with flexibility as we navigate an uncertain macro environment.

Looking ahead, we remain **firmly committed to our long-term Net Asset Value target of 4.5 billion USD by 2030** and continue to execute our strategy with determination and pace. Supported by a stronger portfolio structure, improving earnings quality and disciplined capital allocation, we are even more confident in our ability to sustain our growth trajectory and create long-term value for our stakeholders.

• **Announcement Regarding Daiichi Elektronik's Articles of Association Amendment – 13.04.2026**

In line with our strategic portfolio management and value creation objectives, a significant milestone has been reached in the process of taking our subsidiary Daiichi Elektronik to the capital markets.

It has been resolved to initiate the necessary work, including a potential initial public offering, for Daiichi Elektronik—of which our Company holds a total stake of 46.6% (25% directly and 21.6% indirectly through our subsidiary Karel)—with the aim of enhancing its corporate governance, market visibility, and capital flexibility, thereby enabling it to better capitalize on global growth opportunities. In this context, it has also been resolved to apply to the Capital Markets Board of Türkiye (CMB) for the amendment of the Company's Articles of Association in order to ensure compliance with capital markets legislation.

Daiichi is a pioneering technology company that develops high-tech infotainment, navigation, and smart connectivity solutions for the global automotive industry. Producing at OEM (Original Equipment Manufacturer) standards, the company provides multimedia systems and electronic components to world-leading automotive brands.

As a key component of our strategy to enhance value creation within the framework of our Group's 2030 vision, this step aims to bolster Daiichi's global competitiveness while further reinforcing our group's transparency standards. Further developments regarding the process will continue to be shared with the public in accordance with the relevant regulations.

• **Announcement Regarding Gumustas Mining's UMREK Resource Report – 20.04.2026**

Our 75% subsidiary Gümüştaş Mining is pleased to announce the completion of the updated Mineral Resource Estimate for its 100% owned Bolkar 1 and Bolkar 2 polymetallic projects, located in the Bolkar region of Niğde, Türkiye. The report has been prepared in compliance with the National Resources and Reserves Reporting Committee (UMREK) Code. The report is available at *PDP announcement*.

Key highlights from the resource estimate include:

- **Total Mineral Resources:** A total of 12.7 Million Tonnes (Measured + Indicated + Inferred) has been identified across the Bolkar 1 and Bolkar 2 assets.
- **Average Grades:** The combined resource averages 23.0% ZnEq, including 4.3% Zn, 2.5% Pb, 1.2 g/t Au, and 97.1 g/t Ag.
- **Compliance & Methodology:** The report was compiled under the direction of Mr. Philippe A. Baudry of SLR, a Professional Member of YERMAM and a "Competent Person" (CP) as defined by the UMREK Code.

These results confirm the Bolkar project as a high-grade polymetallic asset and provide a robust foundation for our future production and development strategy. 5. RISKS AND CONTROL MECHANISMS

Our company manages the risks it may encounter while conducting its activities in line with the principles of sustainability and efficiency through a proactive approach. In this context, we address our risk management processes under four main categories: financial, operational, compliance, and strategic risks.

5.1 Strategic Risks

Strategic risks encompass structural risks that could hinder our company's achievement of its long-term objectives. Changes in market conditions, competitive environment, technological developments, and economic factors are among these risks. The management of strategic risks is carried out in an integrated manner with our company's strategic planning processes and is reviewed regularly.

5.2 Financial Risks

Financial risks include factors that could affect our company's financial performance and liquidity. Exchange rate fluctuations, changes in interest rates, volatility in commodity prices, and counterparty risks are evaluated within this scope. These risks are monitored regularly and managed using appropriate financial instruments when necessary. Moreover, to ensure that financial risks remain within defined limits, monitoring and management activities are conducted both at the company level and on a consolidated basis through various financial indicators.

5.3 Operational Risks

Operational risks cover risks arising from internal processes, people, systems, or external events that the company may encounter during its daily operations. These risks include information technology risks, human resource management risks, and disruptions in processes. Standard approaches are implemented to identify, measure, and manage operational risks, and actual and potential loss data related to operational risks are collected.

5.4 Compliance Risks

Compliance risks involve the risks our company may face if it fails to comply with legal regulations and internal policies and procedures. The management of these risks is ensured through close monitoring of regulatory changes, the effectiveness of internal control systems, and regular audits. Effective management of compliance risks is of great importance for protecting our company's reputation and fulfilling its legal obligations.

Our company continuously improves its risk management processes and ensures alignment with international standards. In doing so, the effective management of risks and the achievement of our company's sustainable growth objectives are secured.

5.5 Internal Control and Risk Management

During the first quarter of 2026, the Internal Audit department, operating under the Doğan Holding Vice Presidency of Internal Audit, Risk Management, and Compliance, continued to evaluate the effectiveness of the risk management, control, and governance processes of group companies. Audits were conducted within the scope of the annual audit plan approved by the Board of Directors. The Audit Committee met once during this period to oversee the effectiveness of the audit processes, while the Early Detection of Risk Committee also held one meeting during the same period.

6. CORPORATE GOVERNANCE AND RELATED PARTY TRANSACTIONS

6.1 Statement of Compliance with Corporate Governance Principles

The Corporate Governance Compliance Report for the 2025 fiscal year, prepared in accordance with the Capital Markets Board's Decision dated 10 January 2019 and numbered 2/49, and approved by the Board of Directors of Doğan Holding, was published on the Public Disclosure Platform (PDP) on 9 March 2026. In addition, developments regarding corporate governance practices during the period were disclosed to the public via update notifications made through the relevant section on PDP. There were no changes in compliance with corporate governance principles during the first quarter of 2026.

6.2 Related Party Transactions

Transactions with related parties are disclosed in *Note 18 – Related Party Disclosures of the notes to the consolidated financial statements for the interim accounting period between 01.01.2026 and 31.03.2026.*

6.3 Summary of the Affiliation Report (If Applicable)

Not applicable.

6.4 Corporate Governance Activities During the Period

The Corporate Governance Committee held four meetings during the period within the scope of its duties and responsibilities, aiming to enhance compliance with corporate governance principles, improve management processes, and ensure the effective management of stakeholder relations. In addition, the Committee closely monitored processes related to shareholder relations, public disclosure activities, and the management of stakeholder expectations.

7. LEGAL MATTERS AND OTHER ISSUES

7.1 Legal Proceedings and Lawsuits

The provisions set aside for lawsuits filed against the Group and related compensations are disclosed in the notes to the consolidated financial statements for the interim period ended 31 March 2026, under *Note 11 – Provisions, Contingent Assets and Liabilities / (a) Lawsuits*.

7.2 Dividend Distribution Policy and Expectations

1. According to the accounting records of the consolidated financial tables maintained in accordance with the Capital Markets Legislation, a total of TRY 1,767,706,603.06 of "Net Distributable Profit for the Period (Including Donations)" was generated for the fiscal year 2025.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of Presentation

2.1.1 Preparation and Presentation of Financial Statements

Adopted Financial Reporting Standards

The accompanying interim consolidated financial statements have been prepared in accordance with the presentation principles set out in the Communiqué on Principles Regarding Financial Reporting in the Capital Markets (II-14.1) of the Capital Markets Board (“CMB”), and in compliance with the Turkish Financial Reporting Standards (“TFRS”) issued by the Public Oversight, Accounting and Auditing Standards Authority (“POA”), pursuant to subparagraph (b) of Article 9 of the Presidential Decree No. 660. These financial statements have been prepared in accordance with the 2024 TFRS Taxonomy developed by the POA and announced to the public through the POA’s decision dated 4 July 2024.

In accordance with Turkish Accounting Standard No. 34 'Interim Financial Reporting,' entities are allowed to prepare either a full set or a condensed set of interim financial statements. In this context, the Group has elected to prepare condensed consolidated financial statements for interim periods. Therefore, these interim condensed consolidated financial statements should be read in conjunction with the Group’s consolidated financial statements as of 31 December 2025.

The Group maintains its statutory accounting records in accordance with the Tax Legislation and the Uniform Chart of Accounts issued by the Ministry of Finance of the Republic of Turkey (General Communiqué on Accounting System Implementation), and prepares its statutory financial statements in Turkish Lira.

The condensed consolidated financial statements have been prepared on the historical cost basis, except for financial instruments and investment properties which are measured at fair value.

Adjustment to the financial statements in hyperinflationary periods

The Group has prepared its financial statements for the year ended and as of 31 March 2026, in accordance with TAS 29 “Financial Reporting in Hyperinflationary Economies,” based on the announcement made by the Public Oversight Accounting and Auditing Standards Authority (POA) on 17 April 2024, and the published “Implementation Guide on Financial Reporting in Hyperinflationary Economies.” In accordance with this standard, financial statements prepared in the currency of a hyperinflationary economy must be expressed in the purchasing power of that currency as of the balance sheet date, and prior period financial statements must also be restated in terms of the current measuring unit at the reporting date for comparative purposes. Accordingly, the Group has also restated its financial statements as of 31 December 2025 and 31 March 2025, in terms of purchasing power as of 31 March 2026.

Pursuant to the Capital Markets Board (CMB) decision dated 28 December 2023, and numbered 81/1820, issuers and capital market institutions subject to financial reporting regulations applying Turkish Accounting/Financial Reporting Standards are required to apply inflation accounting under TAS 29 starting from their annual financial reports for the accounting period ending 31 December 2021.

The restatements made under TAS 29 were carried out using the adjustment coefficient derived from the Consumer Price Index (“CPI”) published by the Turkish Statistical Institute (“TÜİK”).

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1 Basis of Presentation (Continued)

2.1.1 Preparation and Presentation of Financial Statements (Continued)

Adjustment to the financial statements in hyperinflationary periods (Continued)

Financial reporting in hyperinflationary economies

The gain or loss in the net monetary position resulting from the restatement of non-monetary items is included in profit or loss and presented separately in the statement of profit or loss and other comprehensive income.

Restatement of the Profit or Loss Statement

All items in the statement of profit or loss are expressed in the unit of measurement in effect at the end of the reporting period. Therefore, all amounts are restated by applying changes in the monthly general price index.

The cost of inventory sold is adjusted using the restated inventory balance.

Depreciation and amortization expenses have been adjusted using the restated balances of mining assets, property, plant and equipment, intangible assets and right-of-use assets.

Restatement of the Cash Flow Statement

All items in the statement of cash flows are expressed in the measurement unit valid at the end of the reporting period.

As of 31 March 2026, the indices and conversion factor used in the correction of financial statements are as follows:

Year End	Index	Conversion Factor	Three Year Compound Inflation Rate
31 March 2026	3,866.74	1.00000	205%
31 December 2025	3,513.87	1.10042	211%

The main elements of the Group's adjustment for financial reporting purposes in high-inflation economies are as follows:

- The current period consolidated financial statements prepared in TRY are expressed with the purchasing power at the balance sheet date, and the amounts from previous reporting periods are also expressed by adjusting according to the purchasing power at the end of the reporting period.

- Monetary assets and liabilities are not adjusted as they are currently expressed in current purchasing power at the balance sheet date. In cases where the inflation-adjusted values of non-monetary items exceed the recoverable amount or net realizable value, the provisions of TAS 36 and TAS 2 were applied, respectively

- Non-monetary assets and liabilities, as well as components of equity, that have not been expressed in terms of the current purchasing power at the reporting date have been restated using the relevant adjustment coefficients.

2.1 Basis of Presentation (Continued)

2.1.1 Preparation and Presentation of Financial Statements (Continued)

Adjustment to the financial statements in hyperinflationary periods (Continued)

- All items in the statement of comprehensive income, except those that affect the statement of comprehensive income of non-monetary items in the balance sheet, are indexed with coefficients calculated over the periods when the income and expense accounts are first reflected in the financial statements.

- The effect of inflation on the Group's net monetary asset position in the current period is recorded in the net monetary position loss account in the income statement.

Functional and Presentation Currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (“the functional currency”). The condensed consolidated financial statements are presented in Turkish Lira, which is the functional and presentation currency of Doğan Holding.

Restatement of the Financial Position Statement

Amounts in the statement of financial position that are not expressed in the measurement unit valid at the end of the reporting period are restated. Accordingly, monetary items are not restated because they are expressed in the currency valid at the end of the reporting period. Non-monetary items must be restated unless they are shown in their current amounts at the end of the reporting period.

2.1.2 Financial statements of subsidiaries and joint ventures operating in foreign countries

Financial statements of subsidiaries and joint ventures operating in foreign countries are prepared in accordance with the laws and regulations in force in the countries in which they are registered and required adjustments and reclassifications reflected for the purpose of fair presentation in accordance with the Group's accounting policies.

If the group entities' functional currency is different from the presentation currency; it is translated into the presentation currency as below:

- Assets and liabilities for each statement of financial position presented are translated at the exchange rate at the date of that statement of financial position.
- Income and expenses for each statement of profit or loss are translated at average exchange rates in the accounting period; and all resulting exchange differences are recognised as a separate component of equity and statements of other comprehensive income (currency translation differences).

When a foreign operation is partially disposed of or sold, exchange differences recorded in equity are recognised in the consolidated statement of profit or loss as part of the gain or loss on sale. Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS (Continued)

2.1 Basis of Presentation (Continued)

2.1.3 Consolidation and equity method accounting principles

The condensed consolidated financial statements include the accounts of the parent company, Doğan Holding, its Subsidiaries and its Joint Ventures (collectively referred as the “Group”) on the basis set out in sections (a) to (b) below. The financial statements of the companies included in the consolidation are based on historical cost of the statutory records and for the purpose of fair presentation in accordance with the accounting policies described in Note 2.1.1 and Note 2.1.2 and application of uniform accounting policies and presentations; adjustments and reclassifications. Financial statements of consolidated entities are restated in accordance with the TAS considering the accounting policies and presentation requirements applied by the Group.

As at 31 March 2026, the voting rights and effective ownership interests of the Group’s subsidiaries, joint ventures and associates have not changed from those reported as at 31 December 2025, except for the entities mentioned below.

Subsidiaries	Proportion of voting power held by Doğan Holding and its subsidiaries (%)		Proportion of voting power held by Doğan family members (%)		Total proportion of voting power held (%)		Proportion of effective ownership interest (%)	
	31 March 2026	31 December 2025	31 March 2026	31 December 2025	31 March 2026	31 December 2025	31 March 2026	31 December 2025

Karel İleri Teknolojiler ⁽¹⁾	66.50	70.00	-	-	66.50	70.00	26.60	28.00

(1) The ownership interest has changed due to share transfers in the relevant companies.

(a) Subsidiaries

Subsidiaries consist of entities that are directly or indirectly controlled by Doğan Holding.

Control is established when the Group meets the following conditions:

- Having power over the investee/entity,
- Being exposed to or having rights to variable returns from the investee/entity, and
- Having the ability to use its power to affect those returns.

If any event or circumstance arises that may result in a change in at least one of the criteria listed above, the Group reassesses whether it has control over its investment. The Group considers all relevant facts and circumstances, including the following elements, when assessing whether the majority of voting rights in a given investment is sufficient to confer control:

- Comparison of the voting rights held by the Group with those held by other shareholders,
- Potential voting rights held by the Group and other shareholders,
- Rights arising from contractual agreements, and
- Other facts and circumstances that may indicate the Group’s ability to direct relevant activities in decision-making situations, including past voting patterns in general assembly meetings.

Subsidiaries are consolidated by the date the Group takes the control and from the date the control is over, subsidiaries are excluded from the consolidation scope. Proportion of ownership interest represents the effective shareholding of the Group through the shares held by Doğan Holding and/or indirectly by its subsidiaries

(b) Non-Controlling Interests

Non-controlling interests of shareholders over the net assets and operational results of subsidiaries are classified as non-controlling interest and non-controlling profit/loss in the consolidated statement of financial position and consolidated statement of income.

2.1.2 Consolidation and equity method accounting principles (Continued)

(c) Joint Ventures

According to TFRS 11 Joint Agreements, investments under joint agreements are classified as joint activities or joint ventures. The classification is based on contractual rights and obligations of all investors, rather than the legal structure of the joint agreement. An investment is accounted for by equity method from the date at which invested company qualified as an associate or joint venture. In acquisition of the investment, all differences between the acquisition value of the investment and the company’s share of the net fair value of identifiable net assets, liabilities and contingent liabilities of the affiliate or the joint venture, are included in the book value of affiliate investment. The portion of the amount that the company’s share from the net fair value of the identifiable assets and liabilities of the affiliate or the joint venture, and that exceeds the acquisition value of the investment, is added to the income in determining the amount of the company’s share from the profit or loss of the affiliate or joint venture in the period that the investment is obtained.

Interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet.

2.1.4 Offsetting

Financial assets and liabilities are offset and the net amount is reported when there is a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

2.1.5 Comparative information and restatement of prior period financial statements

The current period condensed consolidated financial statements of the Group include comparative financial information to enable the determination of the trends in financial position and performance. In order to ensure compliance with the presentation of the current period consolidated financial statements, comparative information is reclassified when necessary and significant differences are explained.

These reclassifications have been adjusted and reported in the comparative period’s consolidated balance sheet and income statement. These changes do not have any impact on the Group’s total equity.

2.1.6 Significant accounting policies and changes in accounting estimates and errors and restatement of prior period financial statements

In order to ensure compliance with the presentation of the current period consolidated financial statements, comparative information is reclassified when necessary and significant differences are explained.

Changes of accounting policies resulting from the first-time implementation of the TAS are implemented retrospectively or prospectively in accordance with the transition provisions. Major accounting mistakes detected are applied retrospectively and the financial statements of the previous period are revised. If the changes in accounting estimates only apply to one period, then they are applied in the current period when the change occurs; if the changes apply also to the future periods, they are applied in both the period of change and in the future period.

2.2 Summary of significant accounting policies

Condensed consolidated interim financial statements for the period ending on 31 March 2026 have been prepared in accordance with TAS 34 for the preparation of interim financial statements of TFRS. In addition, the interim condensed consolidated financial statements for the year ended 31 March 2026 have been prepared by applying the accounting policies consistent with the accounting policies applied during the preparation of the consolidated financial statements for the year ended 31 December 2025. Therefore, these interim condensed consolidated financial statements should be evaluated together with the consolidated financial statements for the year ended 31 December 2025.

NOTE 19 - FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial Instruments and Financial Risk Management

The Group’s activities expose it to a variety of financial risks; these risks are credit risk, market risk including the effects of changes in debt and equity market prices, foreign currency exchange rates, fair value interest rate risk and cash flow interest rate risk, and liquidity risk. The Group’s overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group. The Group uses derivative financial instruments in a limited manner to hedge these exposures.

a) Market risk

a.1) Foreign currency risk

The Group is exposed to foreign exchange risk through the impact of rate changes on the translation of foreign currency liabilities to local currency. These risks are monitored and limited by analyzing foreign currency position. TRY equivalents of foreign currency denominated monetary assets and liabilities as of 31 March 2026 and 31 December 2025 before consolidation adjustments and reclassifications are as follows:

The Group is exposed to foreign exchange risk arising primarily from the USD and EUR, the other currencies have no material impact.

	31 March 2026	31 December 2025
Foreign currency assets	30,613,888	38,951,017
Foreign currency liabilities	(26,433,862)	(24,075,099)

b) *Credit risk*

Credit risk involves the risk that counterparties may be unable to meet the terms of their agreements. These risks are monitored by credit ratings and by setting credit limits to individual counterparties. The credit risk is generally highly diversified due to the large number of entities comprising the customer bases and their dispersion across many different industries.

The table representing the Group’s credit risk of financial instruments as of 31 March 2026 is as follows:

NOTE 19 - FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

c) Fair value of financial instruments

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

The estimated fair values of financial instruments are determined by the Group, using available market information and appropriate valuation methodologies for each segment of the Group. However, judgment is necessarily required to interpret market data to estimate the fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Group could realize in a current market exchange.

The following methods and assumptions are used in the estimation of the fair value of the financial instruments for which it is practicable to estimate fair value:

Monetary assets

The fair values of balances denominated in foreign currencies, which are translated at the period end exchange rates, are considered to approximate carrying value.

The fair values of certain financial assets carried at cost, including fair values of cash and due from banks are considered to approximate their respective carrying values due to their short-term nature and immateriality of losses on collectability. The fair value of investment securities has been estimated based on the market prices at the statement of financial position dates.

Trade receivables are disclosed at their amortized cost using the effective interest rate method and the carrying values of trade receivables along with the related allowances for collectability are estimated to be at their fair values.

The estimated fair value of receivables from finance sector operations represents the discounted amount of estimated future cash flows expected to be received, Expected cash flows are discounted at current market rates with similar currency and remaining maturity in order to determine their fair value.

Monetary liabilities

The fair value of bank borrowings and other monetary liabilities are considered to approximate their respective carrying values due to their short-term nature.

Long-term borrowings, which are principally at variable rates, and denominated in foreign currencies, are translated at the period-end exchange rates and accordingly, their fair values approximate their carrying values.

Trade payables are disclosed at their amortized cost using the effective interest rate method and accordingly their carrying amounts approximate their fair values.

The estimated fair value of demand deposits with no stated maturity classified under payables to finance sector operations, represents the amount repayable on demand. The fair value of overnight deposits is considered to approximate their carrying values. The estimated fair value of fixed-interest deposits is calculated based on discounted cash flows using market interest rates applied to similar loans and other debts. In case the maturities are short-term, the carried value is assumed to reflect the fair value.

NOTE 20 - FINANCIAL INSTRUMENTS

Fair Value of Financial Instruments

The fair values of financial assets and financial liabilities are determined as follows:

- First Level: The fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices.
- Second Level: The fair value of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on prices from observable current market transactions.
- Third Level: The fair value of the financial assets and financial liabilities is determined in accordance with the unobservable current market data.

The level classifications of financial assets and liabilities stated at their fair values are as follows:

	31 March 2026	Fair value level as of reporting date		
		Level 1 TRY	Level 2 TRY	Level 3 TRY
Financial assets				
Derivative instruments held for sale at fair value through profit or loss	168,248	-	186,533	-
